SHELBOURNE HEADER PARTS MANUAL

MACHINE IDENTIFICATION

Your Shelbourne Header is designed to fit many different types of combine

For this reason the machine number index is broken down into sections for identification. Your serial and machine numbers are listed below:

SHELBOURNE HEADER SERIAL NUMBER

SHELBOURNE HEADER MACHINE NUMBER

ADAPTOR PLATE ASSEMBLY

DRIVE KIT

HYDRAULIC FITTING KIT

KIT OPTION	KIT OPTION	KIT OPTION
KIT OPTION	KIT OPTION	KIT OPTION
KIT OPTION	KIT OPTION	KIT OPTION

ORDERING SPARE PARTS

To ensure that you order the correct part from your SRE dealer please use the following procedure.

ALWAYS QUOTE THE MACHINE AND SERIAL NUMBERS WHEN ORDERING.

Refer to the front page of this parts list section (machine assemblies), listing all the sub assemblies.

Use the following sub assembly numbers and descriptions to find the area of the machine that your part is required, i.e. if you need a part which is fitted to the auger, your part will be in the auger sub assembly parts list.

Having decided which sub-assembly your part should be under, use the number beside that sub-assembly description which will begin with 1960-- -- to find the parts listing of the sub-assembly further on in the manual. The number will be printed in the top left-hand corner; the sub-assemblies are in numerical order.

Having found the correct parts list, you will find the corresponding drawing by either looking at the facing page or progressing through the manual to the next drawing.

The drawings indicate the components by item numbers, which you will find, are repeated in the left-hand side of your parts listing, and therefore referring to the correct part.

LIST OF KIT NUMBERS
FOR 14 RSD MACHINES

RSD 14 HEADER
