PARTS MANUAL 2025 & ON

www.shelbourne.com

STRIPPER HEADER

IMPORTANT

Your Stripper Header is made up of a Machine assembly number (common parts), specific sub assemblies and also customer optional build kits. The machine, sub assemblies and optional kit numbers are listed in the front pages of your Operators manual. If you do not have these numbers please contact Shelbourne Reynolds Parts Department direct on (telephone) Stanton - (01359) 251231 or Colby - (785) 462 6299.

To ensure that you order the correct part from your SRE dealer please use the following procedure.

Always quote the machine and serial numbers when ordering.

The year and/or serial number of the machine may determine the correct sub assembly.

Refer to the Parts Manuals front page/s, listing the machine assemblies. Select the correct machine assembly number which is printed in the top left corner of the page (starting with 1965_ _ 01). This machine number can also be taken from the Stripper Header identification plate located on the rear left hand corner of the machine.

On this page you will find the parts listing for the common parts for every configuration of that machine assembly number. You will find the corresponding drawing by either looking at the facing page or progressing through the manual to the next drawing. The drawings indicate the components by item numbers, which you will find, are repeated in the left-hand side of your parts listing, and therefore referring to the correct part.

Note all parts will not be found listed below the machine number. Other parts will be from specific sub assemblies and optional kits. These sub assemblies and kits will be found in numerical order further through the manual. Sub assemblies start with 1960_ _ 01 and kits start with KIT- 19 _ _ _.

The parts listing for adaptor plates, drive kits and hydraulic couplings can be found in the following manuals;

Drive & Adaptor Plate Manuals

Massey Ferguson	MAN-03172	Case IH	MAN-03178
Claas/Cat	MAN-03173	Gleaner/Challenger	MAN-03177
